The UG-M.E.D. program by Let's Enterprise is India's first Working Degree in the undergrad education space and is designed to help youngsters with an entrepreneurial mindset to fast-track their careers.

The Let's Enterprise *journey So far...* 2018-2025

Since 2018, Let's Enterprise has nurtured entrepreneurial mindsets through experiential programs. Over 7 years, 74+ participants from 11 cities completed our flagship Enterprise India Fellowship, gaining 400+ hours of industry experience with 42+ startups and organizations.

In 2023, we launched UG-M.E.D. and B.E.T., India's first working degree and training programs. These initiatives immerse students in solving real-world business challenges alongside startup founders and CEOs, combining practical business, life skills, and self-awareness into transformative learning experiences.

Our Approach

EDUCATION

EXPERIENCE

AWARENESS

India's path to a \$5 trillion economy relies on leaders with a balance of education, experience, and awareness. Education shapes thinking, experience builds skills, and awareness aligns growth with societal needs. Let's Enterprise equips youth with this balance to create future-ready professionals.

Program Investment

3-year Undergrad program in Multidisciplinary Entrepreneurial Development (UG-M.E.D.)

	Installment	University Fees*	UG-MED Fees	Due Date
1	Course Registration Fee (Non-refundable)		₹50,000	Upon enrollment
2	Year 1 Fees	₹37,500	₹5,65,000	Before Course Commencement
3	Year 2 Fees	₹37,500	₹4,00,000	15th May 2027
4	Year 3 Fees	₹37,500	₹3,50,000	15th May 2028
5	Total Fees	₹1,12,500	₹13,50,000	

Scholarships Available

Let's Enterprise celebrates real-world impact, not just report cards. Our scholarships are structured to reward passion, creativity, grit, and unique life journeys—distributed across all three years of the program. Students can choose one scholarship from each of the two categories: performance-based and context-based.

- Category A includes awards for innovation, community service, sports, entrepreneurship, creative arts, leadership, and family business experience (₹15,000 to ₹1,00,000).
- Category B supports students with special circumstances like single-parent households, learning differences, defence families, or successful referrals (₹25,000–₹50,000).
- You must provide proper documentation, and all decisions are final— all scholarships are at the sole discretion of the LE selection team and not open to any further discussions or debates.

Smart Campus

The UG M.E.D. program in Pune operates in a smart campus mode, where the city becomes the classroom. This approach leverages businesses, organizations, and individuals across Pune to provide richer, more diverse learning experiences than a traditional campus.

Benefits of the smart campus model:

- Access to specialized knowledge.
- Dynamic environments, avoiding monotony.
- Opportunities to meet new people and gain varied experiences.
- Confidence in navigating different spaces independently.
- A dynamic schedule involving travel, interactions, and real-world exposure.

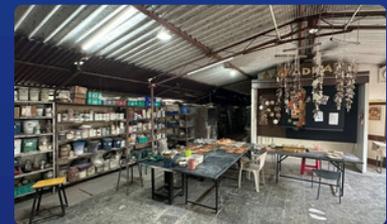

Here are some of the smart-campus spaces for the next academic year:

The **Lets Enterprise** Space

BohriAli Studio

ADIPA Studio

Klug Avalon Design Centre

Stahl Factory

MCCIA Pune

The smart campus model uses city-wide resources to provide hands-on learning, fostering adaptability and real-world skills.

Breakdown of Year 1, 2 & 3

The UG-M.E.D. program is designed to evolve with you, blending academics, real-world experience, and personal growth. Each year builds on the last, taking you from foundational skills to career-ready expertise. Here's how your daily schedule fits into this journey:

- Students start their day by checking in at the Let's Enterprise space at 10 AM. After the morning session, they head to one of the smart campus centers or other locations across the city, depending on their assigned project or challenge.
- During the Apprenticeship period, students report directly to their workplace for hands-on learning and practical experience.

Industry Partners

Over 200 professionals from diverse fields have engaged with Let's Enterprise students as:

- Project Mentors and Thinking Partners.
- Reflective Coaches and Workshop Facilitators.
- Clients for consulting projects.
- Industry Hosts for apprenticeships.

With 50+ industry tie-ups across Pune and beyond, including SMEs, startups, entrepreneurs, and large corporations, our network offers students invaluable real-world experience through mentored projects and apprenticeships. Below are some of the companies where our students have made an impact.

Empowering students with direct industry connections to shape the leaders of tomorrow.

Lighthouse Mentors

We connect our students with accomplished professionals who have excelled in their careers across various fields. These industry experts:

- Mentor, advise, and guide M.E.D. students throughout the year.
- Provide personalized one-on-one sessions, workshops, and tailored project support.
- Offer hands-on experience through apprenticeships and real-world projects.

Our partnership with Lighthouses unlocks transformative opportunities, helping students ignite their potential and prepare for success.
